

CITYTOWN PARADE ANALOG VERSION

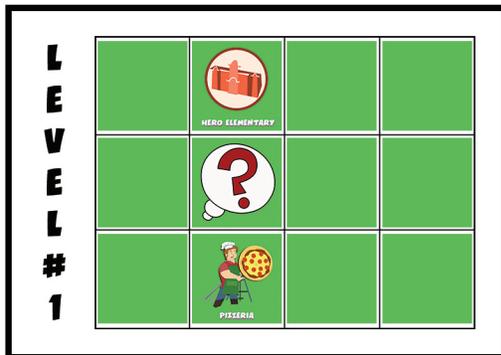

ABOUT

Citytown pARade is a multimedia game where players use physical tiles to make maps and paths to connect locations as seen in the hit show Hero Elementary. The game can be played just using the printable cards without augmented reality. In this packet, you will find everything you need for the analog version of the game (you won't need a mobile device to play the game).

HOW TO PLAY

1. Cut out the Level Cards, Location Tiles, Road Tiles and Game Mat from this document.
2. Use a Level Card to determine how to set up the current level.

4. Place Location Tiles on the Game Mat as directed by the Level Card (for Level #1, the player will use the Hero Elementary and Pizzeria Location Tiles).
5. Place a Road Tile in the ? space to connect the two locations.
6. Check to see if the answer is right.

*Hint: You can use different Road Tiles to solve the same puzzle in different ways!

*You can also check your answers by downloading and playing the mobile AR version of the game! Go to heroelementary.org/citytown-parade for more information.
